EXPERIENCE

SISPRO SA, Canoas — Junior Developer

MARCH 2022 - PRESENT

Currently, I work as a full-stack developer with 3 years of experience in Angular and C#.NET Framework. I am responsible for creating new generic components, maintaining and publishing an internal npm package, and developing a documentation project for components and layout/code standards. I also provide technical support and training for new employees and am implementing unit tests and CI/CD in internal projects.

SISPRO SA, Canoas — R&D Intern

SEPTEMBER 2021 - MARCH 2022

I used the low-code platform Outsystems for full-stack development of Web and Mobile applications for a while and then moved on to using the Angular and C# stack.

ACADEMIC

QI, Alvorada — IT Technician for Internet

SEPTEMBER 2021 - MARCH 2023

Having covered various topics in the software development field, from logic to IoT, I gained valuable knowledge that has been helpful in my career, including in my current job.
