EXPERIENCE

SISPRO SA, Canoas — Full-stack Developer

MARCH 2022 - PRESENT

As a full-stack developer with experience in Angular and C#, I create and maintain generic components, maintain an internal npm package, and develop component and pattern documentation. I also provide technical support, train new employees, and implement unit testing and CI/CD on internal projects.

SISPRO SA, Canoas — P&D Intern

SEPTEMBER 2021 - MARCH 2022

I used the Outsystems low-code platform to develop full-stack applications for Web and Mobile for a while and soon after I started using the Angular and C# stack.

STUDY

QI, Alvorada — IT Technician for Internet

SEPTEMBER 2021 - MARCH 2023

Having covered a variety of topics in software development, from logic to IoT, I acquired valuable knowledge for my career that has also helped me in my work at the company.
